

ICN Gateway Profile Improvement Express Sessions

Position your business to win work

With the recent announcement of the managing contractor for the [North Queensland Stadium](#) Project, Industry Capability Network (ICN) Queensland along with the Department of State Development (DSD) will run a series of ICN Gateway Profile Improvement Express Sessions.

The sessions will provide local businesses with an overview of ICN services and how they are utilised by suppliers and major projects, including information to help position your business to win work.

Specific topics will include:

- What is ICN Gateway?
- How do major projects use the ICN Gateway?
- What does an effective ICN Gateway company profile look like?
- What are the improvements suppliers should make to their ICN Gateway company profile?
- How do suppliers express their interest in supply opportunities?
