

Upper Spencer Gulf Economic Participation Region

The Upper Spencer Gulf has been declared an Economic Participation Region under the Industry Participation Policy (<https://statedevelopment.sa.gov.au/industry/south-australian-industry-participation-policy>) for the next four years. Infrastructure and maintenance procurements to be conducted in the region, will look for local businesses to perform the work. A 20 per cent weighting will be applied for new contracts to promote this objective.

The South Australian Government has identified \$145 million of Government capital investment projects that will occur in the Upper Spencer Gulf, with around \$56 million already underway or scheduled in 2017-18. This project pipeline will provide clear opportunities for local small businesses to be involved.

The Department of Planning, Transport and Infrastructure (DPTI) provides Across Government Facilities Management Arrangements (https://dpti.sa.gov.au/facilities_management) to State Government agencies, for the maintenance, management and improvement of government building assets. DPTI also has panel agreements (https://dpti.sa.gov.au/contractor_documents/panel_contracts) in place for frequent low-value purchases. You will need to be registered with DPTI Facilities Services and meet certain criteria to be eligible (https://dpti.sa.gov.au/contractor_documents/prequalification).

Upcoming Government opportunities
