Application for Tariff Concession Order Research

The Industry Capability Network is recognised as a '*prescribed organisation*' under Paragraph 144 in Part 16 of the Customs Regulation 2015. We conduct research as part of Tariff Concession Order applications to provide advice as to whether 'substitutable goods' or 'potentially substitutable goods' are manufactured within Australia.

Use this form if you are making an application to the Australian Border Force or Department of Home Affairs that requires industry research from ICN Victoria.

Manufacturer of Imported Product

Name of Product:	
Description of Product:	
Manufacturer Name:	
Manufacturing Site:	
Applicable Standards:	
URL to Product:	
Describe the uses of the product:	

Are you aware of any Australian manufacturers of similar goods? If yes, please explain why they are not substitutable.

Manufacturer	Reason

Next steps:

Save and e-mail this document to TCO@icnvic.org.au and any relevant Illustrative Descriptive Material (IDM). This includes brochures, relevant industry standards, photographs, or videos.

Upon receipt, ICN will provide a quotation for the research services, subject to a review of the work required. Typically, the research is completed within 10 business days, but this will depend on the complexity of the research.
